

# GLOBAL SOURCE DATA SOLUTIONS INC. (GSDSI)

Capability Statement — 2026

## Core competencies

---

- Commercially Available Information (CAI) and multi-source OSINT for federal, defense, and intelligence customers.
- Privacy-safe identity resolution: 200M+ U.S. MAID-to-HEM linkages and 700M+ international device IDs across 150+ countries.
- Geospatial intelligence (GEOINT) from mobility data: 26M+ U.S. Points of Interest with polygon-quality validated boundaries.
- Advertising intelligence (ADINT): device-level signals, app activity, real-time location feeds with consent-verified sourcing.
- Multi-source fusion: GEOINT + ADINT + OSINT + identity graph into unified query-ready target packages.
- Pattern-of-life analysis, geofence monitoring, network mapping, trend and anomaly detection.

## Differentiators

---

- Aligned with the ODNI CAI Policy Framework (2024). Sensitive-category exclusions applied at source.
- EU-U.S. Data Privacy Framework, UK Extension, and Swiss-U.S. DPF certified.
- Consent-first methodology with IAB TCF-aligned CMP partners and documented opt-in chains.
- Compatible with AWS GovCloud, Azure Government, on-premise enclaves, SFTP, and REST API delivery. TLS 1.2+ in transit, AES-256 at rest.
- Audit-ready provenance: data-lineage documentation and metadata scrubbing protocols with every feed.
